

## MESSAGE

1. I am delighted to convey my best wishes and felicitations to the AWES fraternity for their commitment and selfless devotion, which has resulted in excellent performance of our educational institutions. My compliments to the Members of the Board of Governors, Board of Administration and Local Military Authorities for their pivotal role, in driving the AWES mission. Our collective efforts have, besides reinforcing confidence of our rank and file, significantly contributed to nation building by adding well - groomed and future - ready youth to the national mainstream.
2. I am glad to note that AWES has declared 2020 as 'The Year of Technology driven Inclusive Education'. This idea will define its focus in the backdrop of changing policies, which impact our education and school system. The evolution of a New Education Policy and imperatives of Right to Education Act - 2009, make 2020, a more significant year. This reorientation, in keeping with changing realities, focussing on primary education, is not only essential but also a step in the right direction.
3. I am sanguine that AWES will scale new heights and strengthen the trust of All Ranks in our education system.
